Commerx Data Resiliency Solution

Overview

The Commerx Data Resiliency Solution delivers comprehensive cyber protection with the unique integration of data protection, to provide peace of mind. Each time your organizations data is backed up or restored it is cleansed from threats of ransomware that could prevent you from accessing your data. Our Data Resiliency Solution is fully managed removing the complexity and risk associated with data management, which allows your team to focus on your clients. Not only is our Data Resiliency Solution with Acronis data protection, but also "Backup, Restore, Business Continuity Plan, and Disaster Recovery Testing".

Benefits

- Fast, reliable & continuous data protection
- Pay-as-you-go efficiency
- Predictable cost structure
- Elastic scalability
- Operational efficiency

Objectives

- Prevent downtime with near-zero RPOs and RTOs for all users and applications
- Map business needs to data protection requirements
- Create holistic continuous data protection
- Mitigate security risks and ensure employee productivity
- Best practices and knowledge transfer

Deliverables

- AI-powered integration of data protection and cybersecurity
- Reliable & predictable data restoration
- Zero-day Malware & ransomware protection
- Integration at all levels: monitoring and management
- Powerful reporting, single pane of glass
- Simplified onboarding

Business Drivers

- Centralized backup services
- Real-time protection of important documents
- Supporting remote workers
- Building a disaster recovery program
- Optimization of your IT budgets
- Bridging the IT skills gap
- Ensure data privacy and compliance

WELCOME TO THE DATA ECONOMY WHERE TRUST IS THE CURRENCY

"We help people harness the power of technology to enable ultimate peace of mind."

Trust, and Verify

One of the biggest points of failure in data protection and recovery policies is the belief that procedures will work as expected without regular testing.

Regular testing is essential because you never know when disaster may strike. Commex will perform monthly, quarterly, and annual tests of your recovery systems.

THE COMMERX DIFFERENCE

The Commerx Service modernizes your cybersecurity and backup with integrated cyber protection that balances your business needs with your budget.
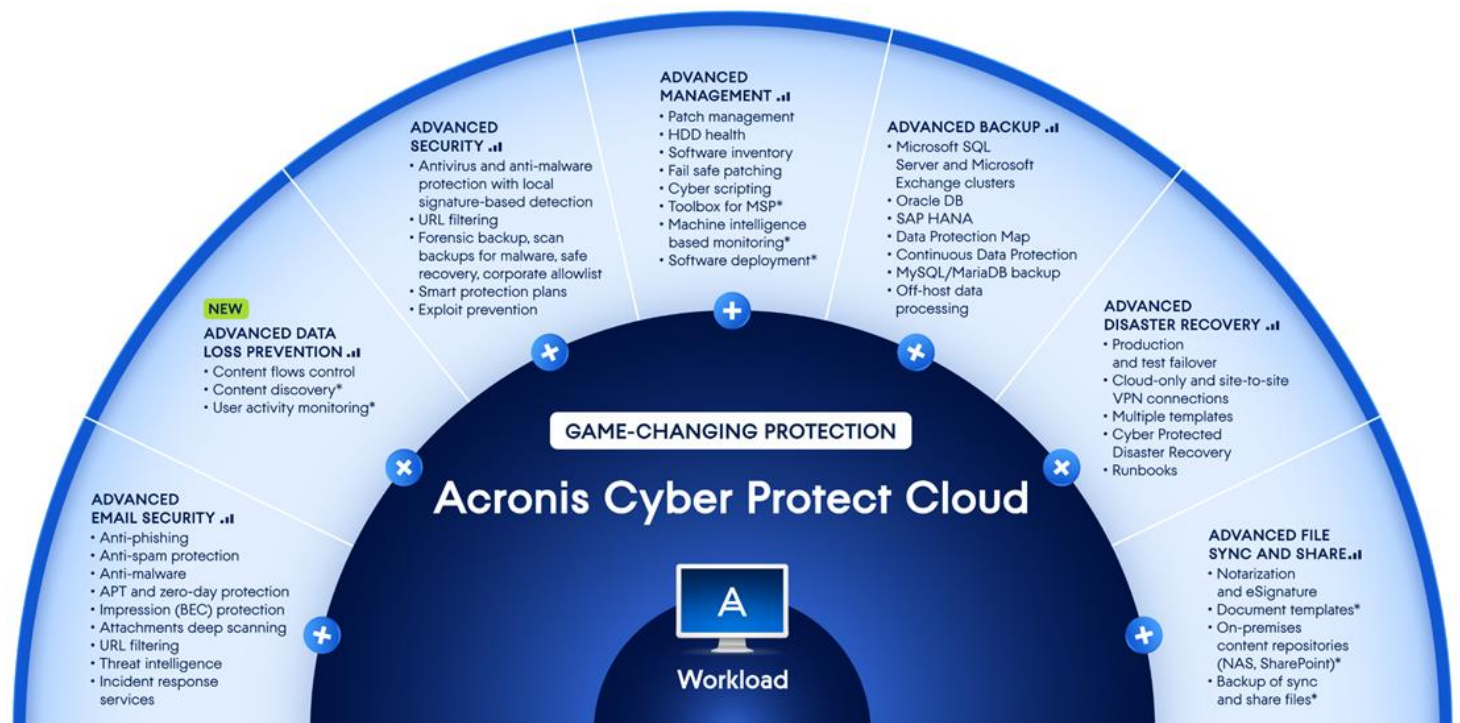

PREVENTION   DETECTION   RESPONSE   RECOVERY   FORENSICS
